

Semiconductors & Microelectronics Solutions

Kathabar temperature and humidity controlled clean air systems

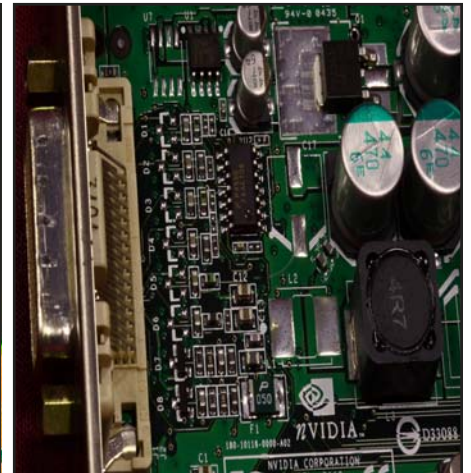

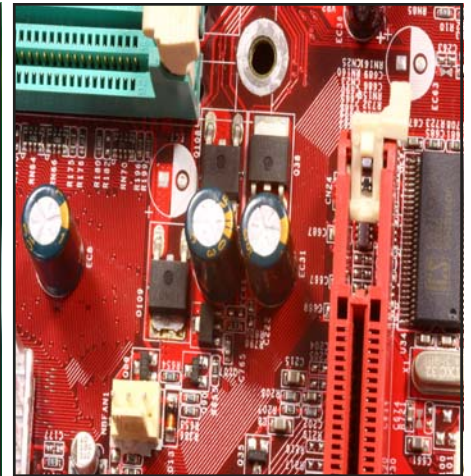

Assembly Areas

Water Fabrication Areas

Photo Lithography Rooms

FEATURES

- Eliminates condensation and corrosion
- Enables 35-40% rooms or lower relative humidity
- Provides cool, dry, sterile air
- Eliminates need for low temperature refrigeration
- Maintains a clean, controlled temperature and humidity level
- Eliminates sub-cool and reheat systems
- Protects equipment from failures
