

Vegetable Solutions

Kathabar temperature and humidity controlled clean air systems

Drying	Processing	Freezing
Packaging	Dehydrating	Storage

FEATURES

- Maintains a clean, controlled temperature and humidity level
- Allow for continuous production
- Reduced maintenance expenses
- Acts as an air scrubber to neutralize airborne microorganisms for bacteria free air
- Frost-free continuous cooling
- Eliminates condensation
- Maximizes production rates by eliminating costly downtime
- Optimal use of refrigeration
- Energy efficient operation for reduced utility consumption
