Kathabar temperature and humidity controlled clean air systems

Sterile Filling	Packaging	Cheese Forming
Spray Drying	Product Storage	Production Rooms

FEATURES

- Maintains a clean, controlled temperature and humidity level
- Allows for continuous production
- Energy efficient operation for reduced utility consumption
- Acts as an air scrubber to neutralize airborne microorganisms for bacteria free air
- Frost-free air
- Eliminates condensation
- Optimal use of refrigeration
- Allows for heat sensitive drying and prevents condensation on cold product surfaces
- Quickly dries floors and walls after washdown
